

Programming and Covid Policy

The Foundation of Arts remains committed to the voluntary programming we have scheduled and the posted procedures on foajonesboro.org until a government mandate, law, or the FOA Board of Directors institutes directives that prevent programming commitments.

CREW app Policy

The CREW app, used by the Foundation of Arts, is specifically purposed as a means of disseminating information to participants in specific programming. Its purpose is not for participants to talk to each other or gather information or opinions from each other. If a participant chooses to use the CREW app in a manner that is not intended, that participant risks being removed from the app and not receiving any necessary information regarding FOA programming.

I understand the above policies.
